

AGRUDRAIN

Drainage Liner

Advantages & attributes:

The product group AGRUDRAIN consists of a three-dimensional, extruded corrugated polypropylene drainage core and either one side or both sides a laminated geotextile.

- Part, drain, separate and protect in one product
- Easy installation due to the transport in rolls
- Good drainage capacity even at high loads
- Industrially produced, controllable product
- High chemical and biological resistance
- ISO 9001:2008 certified manufacturing place
- CE identification

SUPPLY RANGE

Drainage core	Geotextile 130 g/m ²	Geotextile 200 g/m ²	Geotextile 300 g/m ²
400 g/m ²	400 ^{S1)} 130 400 ^{D1)} 130	400 ^{S1)} 200 400 ^{D1)} 200	400 ^{S1)} 300 400 ^{D1)} 300
600 g/m ²	400 ^{S1)} 130 400 ^{D1)} 130	600 ^{S1)} 200 600 ^{D1)} 200	600 ^{S1)} 300 600 ^{D1)} 300
800 g/m ²	400 ^{S1)} 130 400 ^{D1)} 130	800 ^{S1)} 200 800 ^{D1)} 200	800 ^{S1)} 300 800 ^{D1)} 300

^{S1)} Geotextile on one side - laminated

^{D1)} Geotextile on both sides - laminated

The drain composite is available in 2 m width.
